B. Review and Selection Process

Each step in the selection process both at the state level and national level are based on the evaluation criteria listed in section V. A. At the state level, a panel composed of three members, all from the state SGCP, will individually discuss each application. Following this discussion, an individual score will be provided by each panel member. Once all applications have been discussed and scored, an average score will be computed for each application by the state SGCP. The successful applicants will then be submitted by the state SGCP to the National Sea Grant College Program for the national review.

For the national review, a 10 member review panel will be assembled to select the class finalists. The panel will include representation from the Sea Grant Association, the National Sea Grant Advisory Board, and the current class of Fellows. Each panel member is assigned applications to review before the panel meeting. During the panel meeting each application will be individually discussed. Following this discussion, an individual score will be provided by each panel member. Once all applications have been discussed and scored, an average score will be computed for each application by the Knauss program manager or designee. In general, the successful applicants will be selected based on the average score; however, the selecting official may select lower scored applicants based on the selection factors below. The successful applicants will then be placed into either the legislative or executive group by the selecting official based upon the applicant's stated preference, the application materials submitted, and the individual comments of the panel members

C. Selection Factors

The Selecting Official will award in order of average score unless the proposal is justified to be selected out of rank order based upon any of the following selection factors:

1. Balance/Distribution of funds:
 - a. Across academic disciplines
 - b. By types of institutions
 - c. Geographically
2. Availability of funds
3. Program-specific objectives
4. Degree in scientific area and type of degree sought

The Selecting Official makes final recommendations for award to the Grants Officer who is authorized to obligate the funds.

D. Anticipated Announcement and Award Dates

The competitive selection process and subsequent notification to the Sea Grant programs will be completed by May 28, 2010. Funds are expected to be awarded by approximately February 1, 2011, the start date that should be used on the Application for Federal Assistance (Form 424) for successful applications.

VI. Award Administration Information

A. Award Notices

The National Sea Grant College Program will notify each unsuccessful applicant by informing the state SGCP through which the application was submitted via e-mail. This email will contain a written summary of the review panel comments. The state SGCP's will, in turn, formally notify each unsuccessful applicant and forward the summary comments provided by the National Sea Grant College Program. The applications that are not ultimately selected for funding will be destroyed one year after submission date.
